Old Business:

Hamfest - Contract will be signed First week of August. Tables have been reserved for us.

Auction - Still need help. Anyone willing to take over please see KOYBN.

AUCTION WILL BE HELD AT THE NEXT CLUB MEETING WHICH IS IN JULY. I have heard through the grape vine there will be a lot of goodies to take home. Be sure and bring something to pitch in.

Link system - Running temporarily from Columbia to Jeff City to High Hill to St. Louis.

Still have one generator for sale \$150 to the first person to ask. New Business:

AE0S recommended buying a new generator for the club due to the age of the present ones. Approx \$900 including the cord. This was voted on and approved.

The Missouri Emergency Packet network is up and running in St. Louis. Lot of talk on the club sponsoring the link in our area. Motion approved as amended and seconded

Tabled for now while checking on level of commitment.

REMEMBER - THE NEXT CLUB MEETING WILL BE

AT THE ADVENT BUILDING ON VANDIVER. If you need directions tune in to 146.76 and help will be there.

I saved Field Day for last as this was one of the best and most enjoyable that I have been to in a while. It appeared there were more people to help set up and also to take down. And the operating was a lot of fun.

If you didn't make it shame on you and if you had to work, well better

luck next time. Here's hoping John N0EG will have some figures

(numbers) for us at the July club meeting. We had 4 stations running. WE had a big spread in the Columbia Tribune on that Sunday. Will someone send in a report to ARRL????

We are still giving VE testing at the club station so if you want to UPGRADE

please see me and if I haven't mentioned it to you shame on me. We had four last testing session and all passed but none were from the club.

Well that's all I have for now, see you at the club meeting.
